CALFED
BAY-DELTA
PROGRAM

Public Comment

Date _____

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

More fresh water needs to flow through the Bay and Delta to restore habitat and the environment. It is essential that we implement more aggressive water conservation practices before CALFED decides if more dams & canals should be built & if existing reservoirs should be expanded. I also strongly urge you not to build the 1st & 3rd of a canal around the Delta. These actions will cost taxpayers money & further degrade the Bay-Delta ecosystem. Please require investment in more water efficiency before deciding to build new dams, canals & expand reservoirs.
